

Summer 2010 programs

for children ages 7 to 14

Fast ForWord® Reading Intervention Software

The *Fast ForWord®* program develops and strengthens memory, attention, processing rate, and sequencing—the cognitive skills essential for reading intervention.

Our introductory program features:

- Weekly analysis of printed reports by a Certified Speech Language Pathologist
- Personalized feedback to parents
- Changes in cognitive skills can be noted in as little as four weeks; an opportunity to continue in the fall.
- Affordable fees; just **\$20*** per hour

Scientifically proven to improve reading skills. Learn more at www.scilearn.com/results
